AfyaDesk Remote Medical Careers Course

Become Remote-Ready for Global Healthcare Opportunities

By AfyaDesk

AfyaDesk's Remote Medical Careers Course is designed for healthcare professionals and medical support applicants who want to transition from traditional healthcare environments into **remote medical, healthcare administration, telehealth, medical VA, and healthcare support roles**.

The course combines healthcare knowledge with the digital, communication, administrative, and professional skills required to work effectively in a remote healthcare environment.

COURSE OBJECTIVES

By the end of the course, learners should be able to:

- Understand the remote healthcare job market
- Identify suitable remote medical roles
- Create a professional remote healthcare CV
- Build an attractive LinkedIn profile
- Write effective applications and cover letters
- Prepare for remote medical interviews
- Communicate professionally with international patients and teams
- Use common healthcare and remote-work technologies
- Understand medical virtual assistant workflows
- Perform common healthcare administrative tasks
- Understand confidentiality and healthcare data protection
- Work effectively across different time zones
- Build a professional remote work environment
- Apply confidently for international remote healthcare opportunities

MODULE 1 — INTRODUCTION TO REMOTE HEALTHCARE CAREERS

Topics

- What is remote healthcare?
- Growth of telehealth and healthcare outsourcing
- Remote healthcare vs traditional healthcare employment
- The global medical virtual assistant industry
- Healthcare jobs that can be performed remotely
- Kenyan healthcare professionals in the global remote workforce
- Understanding international employers
- Freelance vs contract vs full-time remote employment

Remote Roles to Explore

- Medical Virtual Assistant
- Medical Administrative Assistant
- Medical Receptionist
- Telehealth Coordinator
- Patient Care Coordinator
- Medical Scheduler
- Medical Transcriptionist
- Medical Customer Support
- Medical Records Assistant
- Medical Billing Assistant
- Healthcare Data Entry Specialist
- Referral Coordinator
- Prior Authorization Assistant
- Remote Healthcare Support Specialist

Practical Assignment

Identify **5 remote healthcare roles** that match your education, experience and skills.

Afyadesk

Your Healthcare Team, Virtually.

MODULE 2 — BECOMING A REMOTE-READY HEALTHCARE PROFESSIONAL

Topics

- What remote employers look for
- Professionalism in remote work
- Reliability and accountability
- Time management
- Working independently
- Following Standard Operating Procedures
- Attention to detail
- Meeting deadlines
- Digital professionalism
- Problem-solving
- Working without constant supervision

The Remote Employee Mindset

Learn how to move from:

“I am waiting to be told what to do”

to:

“I understand the task, execute it correctly and communicate progress.”

Practical Assignment

Complete a simulated remote healthcare workday.

MODULE 3 — MEDICAL VIRTUAL ASSISTANT FUNDAMENTALS

Topics

- Role of a Medical Virtual Assistant
- Responsibilities and limitations
- Medical office workflows

Healthcare

- Patient communication
- Appointment scheduling
- Calendar management
- Patient follow-ups
- Referral coordination
- Administrative documentation
- Email management
- Telephone support
- Patient onboarding
- Healthcare customer service

Practical Simulations

Students practice:

- Booking an appointment
- Rescheduling a patient
- Sending appointment reminders
- Handling a patient inquiry
- Escalating a clinical concern
- Following up with a patient
- Managing a doctor's calendar

MODULE 4 — MEDICAL TERMINOLOGY & DOCUMENTATION

Topics

- Common medical terminology
- Anatomy and physiology terminology
- Common abbreviations
- Common diseases and conditions
- Medication terminology
- Diagnostic terminology
- Clinical documentation
- SOAP notes
- Referral letters
- Discharge documentation
- Medical correspondence

Important Principle

A medical virtual assistant should understand medical terminology while recognizing the boundaries between **administrative support** and **clinical decision-making**.

MODULE 5 — PATIENT COMMUNICATION & CUSTOMER SERVICE

Topics

- Professional telephone communication
- Email etiquette
- Patient-centred communication
- Active listening
- Empathy
- Handling difficult patients
- Managing complaints
- Professional WhatsApp communication
- Written communication
- Cultural sensitivity
- Communicating with international patients

Practical Role Plays

Students handle:

- An angry patient
- A patient requesting an urgent appointment
- A patient who missed an appointment
- A confused patient
- A patient asking a clinical question outside the assistant's scope

MODULE 6 — TELEHEALTH & DIGITAL HEALTH WORKFLOWS

Topics

- How telemedicine works

Healthcare
Focused

- Virtual consultations
- Patient onboarding
- Telehealth scheduling
- Digital patient communication
- Virtual consultation preparation
- Follow-up workflows
- Remote healthcare teams
- Electronic Medical Records
- Patient portals
- Digital healthcare documentation

Practical Assignment

Create a complete workflow for a virtual patient appointment.

MODULE 7 — ELECTRONIC MEDICAL RECORDS & HEALTHCARE SOFTWARE

Topics

Introduction to the types of systems commonly used by remote healthcare teams:

- Electronic Medical Records
- Practice Management Systems
- Patient portals
- Scheduling platforms
- CRM systems
- Communication platforms
- Document management systems

Skills

- Searching patient records
- Updating administrative information
- Scheduling appointments
- Uploading documents
- Managing patient tasks
- Maintaining accurate records

Healthcare
Focused

Work
6 of 19

Scalable
Support

*Better Care.
Bigger Possibilities.*

Students should understand that specific software varies by employer.

MODULE 8 — MEDICAL DATA, CONFIDENTIALITY & PRIVACY

Topics

- Patient confidentiality
- Healthcare data protection
- Data minimization
- Access control
- Secure passwords
- Phishing awareness
- Social engineering
- Secure communication
- Device security
- Handling patient information
- Reporting security incidents

Kenyan Context

Introduce the principles of the **Kenya Data Protection Act, 2019** and the importance of protecting personal and health information.

Also introduce the concept of international healthcare privacy requirements that applicants may encounter when working with overseas organizations.

Practical Assignment

Identify security and confidentiality risks in a simulated remote medical workplace.

MODULE 9 — MEDICAL ADMINISTRATION

Topics

- Appointment management
- Patient registration
- Referral management

AfyaDesk

Nairobi, Kenya

info@afyadesk.com

www.afyadesk.com

- Medical records administration
- Documentation
- Insurance administration
- Claims support
- Billing support
- Prior authorization concepts
- Follow-up systems
- Administrative reporting

Practical Exercises

Complete simulated:

- Patient registration
- Referral tracking
- Appointment scheduling
- Insurance documentation
- Administrative follow-up

MODULE 10 — MEDICAL TRANSCRIPTION & DOCUMENTATION

Topics

- Introduction to medical transcription
- Listening skills
- Medical terminology
- Formatting medical documents
- Accuracy
- Proofreading
- Common transcription mistakes
- AI-assisted transcription
- Human verification of AI-generated transcripts

Practical Assignment

Transcribe and format a simulated medical consultation.

MODULE 11 — REMOTE HEALTHCARE TECHNOLOGY

Learn the digital tools commonly encountered in remote work.

Communication

- Email
- Microsoft Teams
- Zoom
- Slack

Productivity

- Google Workspace
- Microsoft 365
- Calendar systems
- Task-management platforms

Healthcare

- EMR/EHR systems
- Practice management platforms
- Patient portals
- Telehealth platforms

AI

Introduction to responsible use of AI for:

- Drafting administrative communication
- Summarizing non-sensitive information
- Transcription assistance
- Task organization
- Research assistance
- Productivity

Emphasize that sensitive patient information should not be entered into AI tools unless the employer has explicitly authorized the tool and appropriate privacy protections are in place.

MODULE 12 — PROFESSIONAL ENGLISH & INTERNATIONAL COMMUNICATION

Topics

- Professional English
- Medical communication
- Email writing
- Telephone etiquette
- Clear written communication
- Understanding different accents
- Communicating with US/UK/Australian clients
- Professional vocabulary
- Avoiding slang
- Handling misunderstandings

Practical Assignment

Write:

- A professional patient email
- A doctor's appointment confirmation
- A follow-up message
- A workplace escalation email

MODULE 13 — BUILDING YOUR REMOTE CAREER PROFILE

Topics

- Creating a remote-ready CV
- CV formatting
- Applicant Tracking Systems (ATS)
- Writing a strong professional summary
- Highlighting transferable skills
- Quantifying achievements
- LinkedIn optimization
- Professional profile photography
- LinkedIn headline

- LinkedIn About section
- Skills and certifications
- Building a professional digital footprint

AfyaDesk CV Framework

Students create a CV specifically optimized for:

Remote Medical Assistant / Healthcare Support roles

MODULE 14 — JOB SEARCH & APPLICATION STRATEGY

Topics

- Where to find legitimate remote healthcare jobs
- Understanding job descriptions
- Matching your skills to requirements
- Keyword optimization
- ATS applications
- Tailoring your CV
- Writing cover letters
- Cold applications
- Recruiter outreach
- LinkedIn networking
- Remote healthcare communities
- Avoiding fake remote jobs and recruitment scams

Application Formula

Research → Match → Tailor → Apply → Follow Up → Interview → Improve

Practical Assignment

Submit applications for **5 simulated remote healthcare positions**.

MODULE 15 — REMOTE MEDICAL INTERVIEW MASTERY

Topics

- Video interview preparation
- Common remote interview questions
- Medical VA interview questions
- Behavioural interviews
- STAR method
- Handling scenario-based questions
- Discussing salary
- Demonstrating professionalism
- Explaining gaps in employment
- Answering “Why should we hire you?”
- Handling difficult patient scenarios

Mock Interview

Each learner completes a simulated remote healthcare interview.

MODULE 16 — REMOTE WORKPLACE SETUP

Topics

- Reliable internet
- Backup connectivity
- Laptop/computer requirements
- Headsets
- Webcam
- Quiet workspace
- Power backup
- Professional background
- Data security
- Productivity tools

Kenya-Specific Remote Work Planning

Create a practical backup plan covering:

AfyaDesk

Internet + Power + Device + Communication

MODULE 17 — WORKING ACROSS TIME ZONES

Topics

- UTC
- East Africa Time
- UK time
- US time zones
- Australian time zones
- Daylight saving time
- Scheduling across countries
- Managing night shifts
- Calendar conversion

Practical Exercise

Convert a patient's appointment between:

Kenya → UK → New York → California

MODULE 18 — AI FOR THE MODERN MEDICAL VA

Topics

- AI fundamentals
- AI-assisted productivity
- Prompt writing
- Email drafting
- Document summarization
- Administrative workflow automation
- AI transcription
- Research assistance
- Quality control
- AI limitations

- Patient privacy and responsible AI use

Final AI Assignment

Design an AI-assisted workflow that saves a healthcare practice administrative time while maintaining human review and confidentiality.

MODULE 19 — FREELANCING & INTERNATIONAL CLIENTS

Topics

- Freelance healthcare support
- Finding clients
- Proposals
- Client communication
- Contracts
- Invoicing
- Professional boundaries
- Building long-term client relationships
- Getting referrals
- Building a professional reputation

MODULE 20 — CAREER READINESS & AFYADESK TALENT POOL

The final module prepares qualified learners for potential opportunities through AfyadeSk.

Career Readiness Assessment

Learners complete:

- CV assessment
- LinkedIn assessment
- Medical terminology test
- Communication assessment
- Medical VA practical assessment

www.afyadesk.com

- Computer skills assessment
- Remote-work readiness assessment
- Mock interview

Successful learners can be considered for relevant **AfyaDesk talent opportunities**, subject to AfyaDesk's recruitment requirements and available positions.

Important: Course completion does not guarantee employment. Selection depends on qualifications, performance, experience, client requirements and available opportunities.

FINAL CAPSTONE PROJECT

Each learner completes a simulated remote healthcare assignment.

Scenario

You have been hired as a Medical Virtual Assistant for a private medical practice.

You must:

1. Manage a doctor's calendar
2. Schedule patient appointments
3. Respond to patient emails
4. Handle a cancellation
5. Process a referral
6. Update an administrative patient record
7. Prepare a follow-up list
8. Handle a difficult patient interaction
9. Escalate a clinical issue appropriately
10. Complete an end-of-day report

This project tests whether the learner can actually perform the job—not just pass a theory exam.

OPTIONAL SPECIALIZATION TRACKS

After completing the core course, learners can specialize in:

Track A — Medical Virtual Assistant

Track B — Telehealth Coordinator

Track C — Medical Receptionist

Track D — Medical Transcription

Track E — Medical Billing & Claims Support

Track F — Patient Support Specialist

Track G — Healthcare Administrative Assistant

AFYADESK CAREER PATHWAY

Create a clear career pathway:

Learn → Practice → Assess → Certify → Build Profile → Apply → Interview → Work

The goal is not simply to give learners a certificate.

The goal is to make them **remote-employment ready**.

STUDENT PORTAL

Build a student dashboard where applicants can:

- View course progress
- Watch lessons
- Download resources
- Complete quizzes
- Submit assignments
- Take assessments

AfyaDesk

Your Healthcare Team, Virtually.

+254 753 728 292

Nairobi, Kenya

info@afyadesk.com

www.afyadesk.com

- View scores
- Book mock interviews
- Build their professional profile
- Upload their CV
- Track application readiness
- View certificate
- Access career resources

AFYADESK TALENT PROFILE

After completing the program, qualified applicants should be able to create an AfyaDesk professional profile containing:

- Professional name
- Professional summary
- Healthcare qualification
- Experience
- Skills
- Certifications
- Remote-work skills
- Medical specialties/experience
- Software skills
- English proficiency
- Availability
- Time-zone availability
- CV
- Assessment scores
- Certificate
- Interview status

This profile can become the applicant's **remote healthcare professional portfolio**.

COURSE PROMISE

AfyaDesk should position the program around this message:

Healthcare
Focused

Kenyan
Talent

Remote
Work

18 of 19

Scalable
Support

Nairobi, Kenya

info@afyadesk.com

www.afyadesk.com

Don't just apply for remote healthcare jobs. Become the candidate employers are looking for.

The course should teach practical skills, professional communication, digital healthcare workflows and job-search strategies that help Kenyan healthcare professionals compete for legitimate remote opportunities.

IMPORTANT DISCLAIMER

AfyaDesk does not guarantee employment, interviews, clients or income after completion of the course.

The course is designed to improve career readiness and practical skills. Employment opportunities depend on individual qualifications, performance, experience, employer requirements and available vacancies.

Clinical responsibilities remain subject to the learner's professional qualifications, licensing requirements and employer policies.
